

Indian Institute of Information Technology Allahabad

Subject: Transitory Guidelines and Reimbursement Protocols for Institute Pharmacy Operations 2025

All employees are expected to exercise the same level of vigilance in the use of public funds as they would in managing their own personal expenditure. In line with this principle, and with the objective of ensuring that quality medicines are made available in the most cost-effective and accountable manner, the Institute is commencing operations of a Pharmacy on the campus. The following guidelines and standard operating procedures (SOPs) have been framed to regulate its functioning and to safeguard both quality and economy in medicine procurement for eligible IITians:

Underlying objectives :

- To streamline the dispensing of medicines to Institute stakeholders;
- To ensure optimal usage of the Institute Pharmacy while making available the larger range of medicines, surgicals, etc items;
- To streamline medical reimbursements by reducing the financial burden by up to 22.82% on cost of medicines;
- To minimise paperwork on the part of patients / next of kin;
- To reduce the administrative time in processing of individualised claims;
- To strengthen the monitoring of prescriptions and procurements
- To reduce the financial burden on beneficiaries, by way of the CASHLESS facility being put in place

and thereby leading to contribute towards prudent use of public funds at the disposal of the Institute.

Guidelines :

1. Separate Billing for Admissible and Non-Admissible Items/medicines

The Institute Pharmacy shall generate separate bills for:

- **Admissible Medicines** – the cost of which will be claimed directly by the Institute Pharmacy from the Institute. Institute Pharmacy must take the signature of the recipient on the face of a copy of Original prescription and cash memo as proof of having delivered the medicines to the stakeholder and validating the bill for claim by the Institute. Carrying institute issued Employee/ Dependant ID card is mandatory for any patient to avail consultations as well as procurement of medicines.
- **Non-admissible Medicines** – as per the extant rules, the cost of which will be borne directly by the concerned IITian. The list of such medicines is also available on the Institute website at

<https://iiita.ac.in/uploads/111%20List%20of%20Inadmissible%20Foods,%20Tonics,%20Toilets%20&%20Medicines254.pdf>

Imp - The list is dynamic in nature and the Institute's F&A section maintains an updated list for final settlement. Status of Admissibility/ inadmissibility shall be decided as applicable on the date of its actual purchase and at the time of settlement of claim by F&A Section to the Institute Pharmacy.

2. CASHLESS Facility for Empanelled Doctors/Hospitals (for OPD as well as IPD cases)

The Institute Pharmacy shall honour prescriptions issued by Institute-empanelled doctors and hospitals under the cashless facility for admissible items. Claims will be settled directly by the Institute.

3. Mandatory Purchase from Institute Pharmacy for IHC Prescriptions for OPD cases ON CASHLESS BASIS

Reimbursable items prescribed by the Institute Health Centre (IHC) must be procured from the on-campus Institute Pharmacy on CASHLESS BASIS.

If an IIITian purchases the medicines from outside, reimbursement will be made after deducting the standard discount on MRP, as quoted in the tender, which are:

- Medicines: 22.82%
- Surgical/Medical Equipment & Devices: 2.84%
- Chemicals & Reagents: 2.29%
- Cosmetic Products: 0.54%

or as per actual discounts offered by the seller, whichever is higher.

The same discount shall apply to non-reimbursable items/ medicines, for which the Institute Pharmacy shall directly recover the cost from the IIITian.

4. IPD Prescriptions – Reimbursement

In the case of Inpatient Department (IPD) admissions, the IIITian is permitted to purchase prescribed medicines directly from the admitted hospital/ outside. Bills will then be reimbursed on presentation to the Institute's F&A Section as per CGHS/ Applicable rule, without pressing for applicable discounts on items, as from Institute Pharmacy.

5. OPD Prescriptions from Empanelled Doctors/Hospitals

IIITians are permitted to purchase medicines from outside for a maximum of **three (3) days** from the date of consultation, whereafter they should purchase the balance medicines from Institute Pharmacy on a CASHLESS basis.

They are required to approach the Institute Pharmacy, which will arrange the remaining medicines within 24 hours, as per the tender clause (ref. Point 7(i), pp. 15/28). Medicinal Bills for the initial 3-days will be reimbursed, upon applying to the Institute F&A Section, as per actuals.

Before purchasing medicines even for the initial 3 days, all are requested to first contact the Institute Pharmacy representative on the following contact number **9456825062** and/or share a photo of their prescription via whatsapp to the same number in order to confirm the availability

status of the medicines. It is advisable that, wherever possible, all available medicines be purchased from the Institute Pharmacy from the very first day itself.

6. OPD Prescriptions from Non-Empanelled Doctors/Hospitals

- a. For Specialities, where empanelled Doctors/ Hospitals ARE AVAILABLE, but OPD consultation is undertaken from non-empanelled Places/ Doctors, then Reimbursement shall initially be restricted to on actual basis for a maximum of 3 days ONLY. For medicines to be taken beyond three days/ from first day itself, the outside prescription shall have to be recommended to by any of the following:
 - (i) For Gynaecological Cases - Dr Pritima/ Other Gynaecologist on Institute Rolls ;
 - (ii) For Orthopedic cases by Dr Avinash Jaiswal/ Other Orthopedician on Institute Rolls; &
 - (iii) For Surgical Cases by Dr A K Singh/ Other Surgeon on Institute Rolls;
 - (iv) For the rest of the cases, by Dr S K Upadhyay. Such prescriptions shall then be honoured on CASHLESS basis at the Institute Pharmacy.
- b. For Specialities, where Empanelled Doctors/ Hospitals ARE NOT AVAILABLE, and OPD Consultations are availed from any Doctor, they shall be reimbursable for initial three days for medicines purchased from anywhere as per actuals and for balance days, the medicines need to be procured from the Institute Pharmacy and if so not done then after applying Institute Pharmacy discount on the raised bill, the bill shall be settled by F&A Section.

7. Non-Availability at Institute Pharmacy

If any prescribed medicine is not available at the Institute Pharmacy, IITians may purchase it from outside for a maximum of 3 days, and the cost will be reimbursed on actuals upon submission of valid bills to the Institute F&A Section. In case the institute pharmacy fails to provide any prescribed medicine within 24 hours of the receiving the prescription, IITians may purchase it from outside. Such purchases will be reimbursed by F&A Section on actuals, as per the submitted bill.

8. Outstation Prescriptions

- a. Prescriptions issued during any travel (during official tours / visits / approved leave) or outstation medical visits shall be honoured by the F&A Section and will be reimbursed on actuals as per the bill by the Institute F&A section.
- b. Outstationed dependents - Dependents who are officially declared to be stationed outside Prayagraj, shall also be eligible to purchase the medicines from their place of usual residence and followed by reimbursement from the Institute F&A Section. The F&A Section shall reimburse the same as per actuals.

9. Relaxation for Dependent Senior Citizens

For dependent Senior Citizens of Institute employees (i.e. the ones aged 60 and above), relaxation of additional four days in clause 6(a) and 6(b) is provided. Also in their case, Clause 7 condition shall stand waived, thereby meaning that in case upon the presentment of the prescription, if their medicines are not available instantaneously with the Institute Pharmacy, then they shall be free to purchase the same from anywhere and liable to be reimbursed as per actuals.

10. Emergency Conditions and Institute Pharmacy Closure Situations

- a. In such instances, the patient shall be free to purchase the prescribed medicines from anywhere preferably for the initial three days, whereafter the balance procurement shall have to be done from the Institute Pharmacy. This shall be applicable on prescriptions whether from IHC, OR from Institute Empanelled Doctors/Hospitals OR non-empanelled doctors/ hospitals. Such outside bills shall be reimbursable, as per actuals.
- b. Emergency conditions shall have to be expressly certified by the attending Doctor.
- c. If a IIITian purchases reimbursable items for beyond three days from outside, reimbursement will be made after deducting the standard discount on MRP (as quoted in the Institute Pharmacy tender), which are:
 - Medicines: 22.82%
 - Surgical/Medical Equipment & Devices: 2.84%
 - Chemicals & Reagents: 2.29%
 - Cosmetic Products: 0.54%

or ACTUAL Discounts, whichever is higher.

General Criterion:

1. In all cases, in case the Institute F&A Section finds any inaccuracy at any stage, it shall be authorised to recover the overpaid money from either the Institute Pharmacy or the incumbent, as the case may be.
2. Wherever, medicines / items are purchased from outside for 3 or 7 days, as the case may be, it shall be necessary that the prescriptions, for seeking prescribed items for balance days, shall be presented to the Institute Pharmacy well in time, to allow at least 24 hrs time to Institute Pharmacy to procure the prescribed items, to allow for unhindered continuity on the patient's end.
3. In case of failure to honour any prescribed medicine or item available within the stipulated timeline, the Institute Pharmacy shall immediately communicate the same to the institute via email to ose.skupadhyay@iiita.ac.in clearly stating the reason(s) for non-availability, with a copy to the patient also.
4. Institute Pharmacy shall dispense the prescribed medicine(s) as such with no replacement from its end. In case the prescribed medicine is not available with the Institute Pharmacy, BUT an equivalent replacement is available, then the Pharmacy shall be authorised to consult the attending doctor to seek his/her advice on whether or not to dispense the replacement. The decision of the attending doctor shall be final.
5. The word "outstation" wherever used herein, refers to areas outside the administrative limits of Prayagraj District but extends to within the geographical limits of India only.
6. In case if the outside pharmacist denies for part medicine, then as a practical solution - F&A Section will honour the bill as presented after deducting Institute Pharmacy equivalent Discount.

7. In case the medicine is prescribed for five days, the employee avails 3-days medicine from outside, then institute pharmacy has to provide cashless medicine for the balance for two days only.
8. Dispensing from the Institute Registration Desk so far being undertaken shall stand withdrawn from 20 August 2025. Only Emergency medicines shall be stored in Institute Health Centre premises and dispensed/ used as per directions of the attending IHC Doctor in odd hours/ use when the Institute Pharmacy is closed/ not in operation. Since only limited doses may therefore be available from IHC at such times, balance medication shall be required to be procured from the Institute Pharmacy, subsequently.
10. Emergency/ life saving medicines (names as well as quantities) for being maintained at the Institute Registration Counter will be decided by the committee comprising of Dr S K Upadhyay, MD (Chairman); Dr Avinash Jaiswal, MS (Orthopedics) and Dr Pritima Chaudhary, MS(Gynaecology), within three days from the issuance of this policy. Past campus needs on routine medicines related to seasonal ailments/ infections/ diseases shall also be duly considered by this committee while finalising the said list. The same shall be requisitioned under the signatures of the committee Chairman from the Institute Pharmacy, as and when needed, and kept in the IHC for dispensing by the paramedic on duty, as per directions of the attending IHC Doctor in odd hours/ use when the Institute Pharmacy is closed / not in operation. The Institute F&A section shall settle the bill raised by the Institute Pharmacy in this respect to the Institute, after the due certification of the committee Chairperson and counter signatures of the Officer In Charge, Institute Health Centre (OI/C IHC).
11. The above policy guidelines are applicable only for eligible IIITians.
12. The Director IIIT Allahabad shall have the powers to remove difficulties arising out of the above/ consider and allow for relaxations, on a case to case basis, as felt proper by him.

All IIITians are accordingly now advised to purchase medicines from the Institute Pharmacy opened in the Institute Shopping Centre Area of the Institute campus to avail the cashless facility on the prescribed admissible medicines and highest applicable discounts on MRP on the in-admissible medicines, which may otherwise be difficult to obtain from outside pharmacies.
